

Queens Care *Society*

Queens Care Society is a charitable society whose goal is to advocate for seniors in our region. Our mission is to identify and encourage opportunities that enable seniors to continue to live and fully participate in our communities. We value diversity, embrace change and look toward a positive future for the aged in the region.

Queens Care Society is an advocate for seniors that speaks with integrity, credibility and professionalism. We take the lead for the betterment of our community, demonstrating compassion and giving voice to those who do not necessarily have one. We strive to create collaborations and partnerships, navigating the maze of regulating and governing bodies to ensure the best outcome for our seniors.

To accomplish our bold vision we have established the following

Strategic Goals

Enhanced Lifestyle

- Consider the whole person when advocating on behalf of seniors
- Identify opportunities based on professional input within the spectrum of wellness and health

Education

- Be informed and up-to-date with current and future issues and opportunities

Networking

- Enable networking among regulating bodies, health and home support, local institutions and community constituents

Infrastructure

- Identify and help create appropriate living based on social and economic realities
- Immediately focus on three core items: transportation, housing and networks

We have a plan to better the lives of seniors in our communities. However, none of it can be accomplished without organizational, community, and your personal support.

Government and health bodies encourage seniors to stay in their homes as long as feasible. Seniors, too, wish this for themselves. Your donation will mean they can stay longer in the community they love, surrounded by their family and friends, and in the house and home they built over their lifetime.

Your generous donation to Queens Care Society can help turn that wish into reality. To donate:
